vorites are the

Moon, Saturn, Jupiter, the Orion Nebula, the Perseus Double Cluster, and the Andromeda Galaxy. The observatory houses a 20" PlaneWave reflecting telescope. This large telescope is fully computer controlled, and is equipped with a robust CCD imaging system. This enables high-fidelity images of distant and dim deep-sky objects. In addition, the observatory has eight tripod-mounted Celestron 8" computerized telescopes. These mobile telescopes provide excellent views of the moon, planets, and a variety of other celestial objects.

Professor Zahariadis, International Studies. Sunday, June 22 in FJ-B 7-8 PM Just like in the United States, talk of a reemergence of radical populism is rampant in Europe. A pan-European alliance of far-right parties has joined a mix of disparate radical left parties in a dozen European countries to contest elections to the European Parliament. The aim is to gain enough seats to dismantle European Union institutions from within by0a
